

PERSPECTIVES 2023
RIO OLESKY'S ANNUAL ASTROLOGICAL EVENING

In 2023 three of the outer 5 planets will change sign. This suggests that there will be challenges and changes that affect both collective experience as well as individual consciousness. Some of these will last for years, others are more immediate. They all have to be experienced within a background of the Russian war, global inflation, the pandemic and the ever-present threat of climate change.

In this year's talk, Rio will provide perspectives about these transits:

Pluto transiting into Aquarius
Saturn transiting into Pisces
Jupiter transiting into Taurus
Neptune remaining in Pisces
Uranus remaining in Taurus

Join Rio as he delineates these and other important energy patterns. The focus of the talk will be on understanding the nature of these influences and learning how to work with them to enhance personal growth and consciousness development. He will discuss how the transits could affect us politically, economically and globally.
